10 Nov 2015

Ref:mm/TRANSFERATPERTHAIRPORTNov15

TO : ALL IATA TRAVEL AGENTS
FROM : CORPORATE AGENCY SALES AND SERVICE MANAGER
SUBJECT : TRANSFER AT PERTH AIRPORT

Dear Travel Trade Partner

We wish to advise you that effective 22 November 2015, Virgin Australia (VA) will be relocating to International Terminal.

The relocation will greatly improve transfer of passengers connecting from Domestic to International points and from International to Domestic Points in Perth.

Passengers arriving on **Flight MK440** connecting on to VA domestic services still need to collect their baggage and clear customs on arrival in Perth and then proceed direct to the Virgin check in for baggage drop off (turning right as they exit customs). They then proceed directly to the departure lounge in the new pier for their domestic flight. All in the same terminal.

Departing passengers on **Flight MK441** services through checked from VA domestic services proceed directly from VA arrivals to international departures. All in the same terminal.

The inter terminal bus transfer process for QF domestic passengers is unchanged.

Kindly find attached a map of the terminal.

Please be guided accordingly

Best Regards
